

Silverhill

Dear Members,

Some of you will have seen the recent website where [Kim Gottlieb](#) (www.winchesterdeservesbetter.com) campaigns against the revised scheme for the Silverhill development, which is expected to be submitted to Winchester City Council shortly. Bound paper copies of Mr Gottlieb's case have also been sent to every City Councillor.

The attached paper is a response to the issues raised by Mr Gottlieb written by Michael Carden, which he submitted to the meeting of the Trust last Monday when the matter was due to be discussed. Whilst fully aware of differing views about the development amongst members and the public, a majority of Trust Council members has been broadly in favour of the development since its inception, but has argued determinedly over the years for a number of changes, most of which are embodied in the latest proposals.

The Trust Council agreed that [Michael's comments](#) (with a few minor amendments) are a fair and balanced assessment of the situation and should be sent to you all, and we hope you will find them helpful.

Keith Leaman, Chairman.
